**408.3 Start Procedure**

All outside help is forbidden. By order of the starter, the standing competitor must plant his/her poles/outriggers in front of the start gate (wand) or wherever indicated and the sitting competitor must plant his/her outriggers behind the start gate (wand). Pushing off or bracing from the start posts/frame or other aide is forbidden. For all athletes, the tip(s) of the ski(s) must remain beyond the start gate (wand) during the entire start procedure.

- Standing competitors with a dominant arm, or an arm that is utilising a pole, may only push off from the start utilising the dominant arm, or the arm utilising the pole. The competitor cannot use the secondary arm as an aid to support the start push off in any way.
- For sitting categories only one push is allowed to exit the start ramp.

**408.4 Start Clock**

For Level 0 events a start clock that provides at least an acoustic countdown signal on the fixed start interval as prescribed by the Jury must be utilised for all events with a set interval (DH, SG and GS)

**408.5 Start Signals**

Ten (10) seconds before the start, the starter will tell each competitor "10 seconds". Five seconds before the start, he should count "5, 4, 3, 2, 1" and then give the start command, "Go - Partez - Los".

In Slalom the starter will tell each competitor "Go - Partez - Los", the competitor then has ten (10) seconds to start.

In the case of fixed start intervals, the delayed competitors may start at the fixed interval after he has reported to the start referee, in accordance with the decision of

the Jury. The start referee informs the Jury as to when (after which start number) a delayed competitor is starting.

In the case of irregular start intervals, the start referee informs the Jury as to when (after which start number) a delayed competitor is starting.

#### **408.6 Start Timing**

The start timing shall measure the exact time the competitor crosses the start line with his leg below the knee except for sit-skier (start gate height for sit-skier is 80 cm).

#### **408.7 Delayed Start**

A competitor who is not ready to start on time will be sanctioned. The start referee may however excuse such a delay if, in his opinion the delay is due to "force majeure". For example, breakdown of a competitor's personal equipment will constitute a "force majeure" should athlete safety be in question. A minor sickness of a competitor does not constitute "force majeure".

In case of doubt, the Jury may allow the start provisionally.

**408.7.1** The start referee makes the decisions after consultation with the Jury and must record the start numbers and names of competitors who were not allowed to start because of late appearance, or who were allowed to start in spite of late appearance, or who were allowed to start provisionally.

#### **408.8 Valid Start and False Start**

In competitions with a fixed start interval the competitor must start on the start signal. The start time is valid if it occurs within the following limits: 5 seconds before and 5 seconds after the official start time. A competitor who does not start within that space of time will be disqualified.

The start referee must inform the Referee of the start numbers and names of the competitors who made a false start or have contravened the starting rules.

### **409 Course and Competition**

#### **409.1 Course Setting**

##### **409.1.1 Assistance**

Assistance must be provided for the course setter, at a time to be fixed by the Jury, so that he can concentrate on the actual course setting and not be distracted by fetching poles, etc.

The Chief of Course Equipment must provide enough of the following:

- a corresponding number of gate panels, divided by colours

- enough gate numbers
- colouring substance for marking the position of the poles.

Coloured dye (Blue) used vertically from gate to gate as well as horizontally across the course or the inside and/or outside of the racing line before and after the gate notably on the approaches indicating changes in terrain, jumps, etc. This is required for all DH, SG and GS events.

409.1.5 *Spare Poles*

The Chief of Course is responsible for the availability and correct placing of enough spare poles. The poles are to be placed so that the competitors are not misled by them.

**409.1.8** *Warm up Slope*

Appropriate warm up slopes should be made available.

**409.2** **Competition**

**409.2.1** *Passage of the Gates*

A gate has been passed correctly when both the competitor's ski tips/tip and both feet/foot have crossed the gate line. If a competitor loses a ski, without committing a fault, e.g. not by straddling a pole, then the tip of the remaining ski and both feet/foot must have crossed the gate line. This rule also applies when a competitor has to climb back up to a gate.

For competitors with one ski, the tip and the boot need to cross the gate line.

On single gate slalom, where there is no outside pole and a competitor misses the gate, the competitor must climb back up to a position where the toe piece of the boot binding (s) crosses the imaginary line of the turning pole.

**409.2.2** The gate line in Downhill, Giant Slalom and Super-G, where a gate consists of two pairs of poles holding gate panels between them, is the shortest imaginary line between the turning pole and the outside gate at snow level.

**409.2.3** The gate line in Slalom is the shortest imaginary line between the turning pole and the outside pole

**409.2.4** *Interdiction to Continue after a Gate Fault*

If a competitor misses a gate, they must no longer continue through further gates.

**409.2.5** *Interdiction to Continue after a competitor stops*

If a competitor comes to a complete stop (e.g. after a fall), he must no longer continue through previous or further gates. This interdiction is valid in:

- Events with a fixed start interval DH, SG and GS.

409.2.5.1 The only exception is for SL; as long as the competitor does not interfere with the run of the competitor that follows or has not been passed by a competitor.

409.2.5.2 Exception for guides, who can stop to remain in compliance to competitor-guide distance requirements.

### 409.3.2 Competitor inspection

The time and duration of the Competitors Inspection is determined by the Jury and scheduled at the team captains meeting. If necessary (e.g. because of special

weather conditions), the Jury may decide on special methods of competitors inspection.

The competitor inspection is held after Jury inspection and after the Jury has opened the course and is normally inspected, from top to bottom of the course. The course must be in racing condition from the time the competitor's inspection starts and the competitors must not be disturbed during the inspection by workers on the course or similar. The competitors are authorised to study the final setting of the course by either skiing down at the side of the course at low speed, or side slipping through the gates (inspection). Skiing through gates or making practice turns parallel to those required by gates on the course is not allowed. Competitors must carry their start numbers. Fenced, roped or blocked off sections of the course or gates must be respected. By the end of the inspection time, Competitors have to be outside the race course including the finish corral. Competitors are not permitted to enter the course on foot without skis.

## **410 The Finish**

### **410.1 The Finish Area**

410.1.1 The finish area should be plainly visible to competitors approaching the finish. It must be wide with a gently sloped smooth run-out.

The finish area is to be fenced in. Any unauthorised entry is not allowed.

410.1.2 In setting the course with gates, particular attention should be paid to directing competitors across the finish on a natural line adapted to the terrain.

410.1.3 The organiser must define by a clearly visible red line an "inner finish area" and ensure that the competitors are able easily to reach this area on skis.

410.1.4 The competitor must leave the finish area through the official exit with all the competition equipment used in the race.

410.1.5 For competitors who have finished their runs, a special area separated from the actual finish, is to be provided. In this area or corridor, it should be possible to make contact with the press (print, radio, TV and film) located in the media corridors.

### **410.2 The Finish and its Markings**

The finish is marked by two poles or vertical banners which may be connected by a horizontal banner. In Downhill and Super-G races, the finish must be no less than 15 metres wide and in Slalom and Giant Slalom no less than 10 metres wide. In

exceptional cases, the Jury may decrease this distance on the spot for technical reasons or because of the terrain. The width of the finish is considered to be the distance between the two finish poles or banners. The supports used to mount the timing devices must also be at least this far apart.

The timing supports can usually be placed behind the finish poles or banners, on the downhill side. The finish line between the timing cells must be clearly marked horizontally with colouring substance.

#### **410.3 Crossing of the Finish Line and Recording of the Times**

The finish line must be crossed:

- on both skis or
- on one ski or
- with both feet or with the sit-ski in case of a fall between the last gate and the finish line.

In this case the time is taken when any part of the competitor's body or equipment stops the timekeeping system.

#### **410.4 Report**

The finish referee must make a report to the Referee immediately after the race or the official training.

#### **411 Award Ceremony**

The LOC will arrange the Award ceremonies in consultation with World Para Alpine Skiing.

411.1 In the event an organizer chooses a flower or medal ceremony before the protest time has expired, it will be at its own risk and responsibility.

#### **412 Group Draw and Starting Order**

412.1 The valid WPAS points list must be used for the ranking of competitors/riders.

412.2 Starting order by category:

Starting order is: Visually Impaired – Standing – Sitting

**The Jury has the ability to change the start order.**

#### **412.3 Start Groups**

- The starting order of the competitors in all alpine competitions is determined by their WPAS Points as follows:

- The maximum number of athletes in a starting group for all World Para Alpine Skiing competitions is 15 athletes
- In case of an equality of points in the 15th rank, the first group can be increased accordingly.
- Only Athletes with 100 WPAS Points or less will be drawn by random in the starting group.
- If there are more than 15 athletes with less than 100 WPAS Points the 15 with the lowest WPAS points will be in the 1st starting group

The remaining athletes will be drawn according to the WPAS Points. Athletes without WPAS points will be placed by random draw.

#### **412.4 Starting Order for the Second Run**

In competitions with two runs, the starting order of the second run is determined by the results list of the first run except for the first 30 ranked athletes, who will start in reverse order of finish. If more than one competitor is ranked 30th, the competitor with the lowest bib number will start first.

### **413 Start Intervals**

#### **413.1 Start Intervals in IPC Races**

The start can take place in each discipline at variable intervals as determined by the Jury. The competitor on the course does not need to cross the finish before the next competitor starts. Athletes in the B1 class should have nearly completed the course prior to the next athlete starting.

### **414 Re-runs**

#### **414.1 Pre-requisites**

A competitor who is obstructed while racing must stop immediately after the incident takes place and report this to the nearest gate judge. He may apply to any member of the Jury for a re-run. The team captain of the obstructed competitor can also make this claim. The competitor should make his way to the Finish along the side of the course.

In special situations (e.g. in case of missing gates, failure of the timekeeping system or other technical failures), the Jury may order a rerun.

- 414.1.1 If a competitor is stopped by a yellow flag, he has the right to a re-run, under the condition that the Jury considers this possible from an organisational point of view. The Jury should ensure that the competitor's re-run takes place before the last

competitor of the race (preferably in the athlete's category on the start list of the race, or training run in the case of Downhill).

#### **414.2 Grounds of Interference**

- 414.2.1 Blocking of the course by an official, a spectator, an animal or other obstruction.
- 414.2.2 Blocking of the course by a fallen competitor who does not clear the course quickly enough.
- 414.2.3 Objects in the course such as a lost ski pole or the ski of a previous competitor.
- 414.2.4 Activities of the first aid service which obstruct the competitor.
- 414.2.5 Absence of a gate knocked down by a previous competitor that has not been promptly replaced.
- 414.2.6 Other similar incidents beyond the will and control of the competitor, which cause significant loss of speed or a lengthening of the racing line and consequently affect the competitors time.
- 414.2.7 Interruption by an official with a Yellow Flag

#### **414.3 Validity of a Re-run**

- 414.1 If the Referee or another Jury member is unable to question the appropriate officials immediately or to judge the justification for the re-run they may grant a provisional re-run, to avoid delay for the competitor. This re-run will be valid only if it is subsequently confirmed by the Jury.
- 414.2 If the competitor was already disqualified before the incident entitling them to a re-run, the re-run is not valid.
- 414.3 The provisional or subsequently approved run remains valid even if it proves slower than the obstructed one.

#### **414.4 Start Time of Re-run**

- 414.4.1 The competitor must report to the start referee. The start referee will inform the competitor the start position. The competitor will start in accordance to 408.4 and 414.1.1

#### **415 Interruption or Termination of the Run or Training**

If an interrupted run cannot be finished on the same day, it is to be treated as a terminated run.

- 415.1 By the Jury

- 415.2 to allow course maintenance or to allow a fairer and more consistent course for all competitors.
- 415.3 for unfavourable or inconsistent weather and snow conditions
- 415.4 The race is to be restarted as soon as the work on the course has finished and if the weather and snow conditions have changed so that a fair competition can be assured.
- 415.5 A repeated interruption of the race ordered for the same reason should lead to a termination. A Downhill, a Super-G, as well as one run of Slalom or Giant Slalom may not last longer than four hours.
- 415.6 Brief Interruption. Each member of the Jury is entitled to order a brief interruption of the run, including at the request of a gate judge
- 415.7 The Jury will terminate a competition:
- if the competitors are significantly affected by outside disturbing influences.
  - if conditions arise that interfere with the fairness of the race or if the proper conduct of the race may no longer be guaranteed.

#### **416 Not Permitted to Start (NPS)**

This is not a DSQ

NOTE – Skis & Helmets

- There is no provisional start for skis/helmets.
- Racer is Not Permitted to Start (NPS).
- Racer is NOT DSQ.
- Racer has until second last racer in the run taking place to find skis/helmet correctly marked.

A competitor will not be permitted to start in any WPAS International Ski competition who:

- 416.1 wears obscene names and/or symbols on clothing and equipment or behaves in an unsportsmanlike manner in the start area
- 416.2 in downhill if he has not participated in at least one timed training run
- 416.3 does not wear a crash helmet that conforms to the competition equipment specifications or does not have ski brakes on their skis or has not signed the waiver for equipment if needed

416.4 was disqualified (DSQ), was not permitted to start run 1 (NPS1), not permitted to start run 2 (NPS2), did not start (DNS), did not finish (DNF) or did not qualify (DNQ)

## **417 Penalties**

A penalty will be assessed by the Jury especially where the competitor:

- 417.1 violate the rules governing advertising on equipment (art. 318.)
- 417.2 alters the start number (Bib) in a way which does not allow the Bib to remain in its original form
- 417.3 does not wear or carry the official start number (Bib)
- 417.4 skis through set gates or practices turns parallel to the course or violates in any way rules of competitors' inspection (art. 409.3.2)
- 417.5 is not ready to start on time or makes a false start
- 417.6 violates rules of the start or starts in a manner that is not permitted by the rules (art. 408.3)
- 417.7 requests a re-run which proves not to be valid (art. 414.3)
- 417.8 continues to race after committing a gate fault or after a complete stop or violates the rule Loss of one Ski (for standing or VI competitors with two skis)
- 417.9 fails to pass the finish correctly (art. 410.3)
- 417.10 removes skis before crossing the red line
- 417.11 does not leave the finish area through the official exit with all the competition equipment used in the race
- 417.12 receives outside help during a competition

## **418 Disqualifications**

A competitor will be disqualified if he or she:

- 418.1 participates in the race under false pretences
- 418.2 jeopardises the security of persons or property or causes actual injury or damage
- 418.3 or their guide does not pass through a gate correctly or does not start within the time limits.

## **419 Competitions Under Artificial Light**

Competitions under artificial light are permitted and must be approved by World Para Alpine Skiing.

## **420 Gate judges' Instructions**

- 420.1 Each gate judge should have a thorough knowledge of the competition rules. The gate judge is required to follow instructions from the Jury.
- 420.2 The decision handed down by the gate judge must be clear and unbiased. A drawing of the fault committed is essential. The gate judge must declare a fault only when he is convinced that a fault has been committed.
- 420.3 The gate judge can consult the adjacent gate judge in order to confirm his opinion. They can even demand via a member of the Jury that the race is briefly interrupted, so that they may check the tracks on the course.
- 420.4 When an adjacent gate judge, a member of the Jury or an official video controller makes a report concerning a competitor which differs from the notes of the gate judge in question, the Jury may freely interpret these notes in view of a possible disqualification of a competitor or of a decision concerning a protest.
- 420.5 A competitor, in the case of an error or a fall, is permitted to ask the gate judge if a fault was committed and the gate judge, if asked, must inform a competitor if they have committed a fault that would lead to disqualification. The gate judge cannot physically assist the competitor.
- 420.6 The competitor is fully responsible for their action and, the competitor cannot hold the gate judge responsible.
- 420.7 The gate judge is required to give information to Jury members on request.
- 420.8 The chief gate judge (or his assistant) is required to collect all the check cards immediately after each run and to pass them on to the Referee in the finish.
- 420.9 Each gate judge who has recorded a disqualifying fault or who has been witness to an incident leading to a re-run must be available to the Jury until after the settlement of any protests.
- 420.10 When a gate judge observes an obstruction of a competitor they must enter the details of the incident on their card.
- 420.11 The gate judge must be so placed that they can safely but properly observe the terrain, gates and course sections for which they are responsible, they should be

near enough to be able to take prompt action, but distant enough not to hinder the competitor. Any equipment necessary to permit the gate judge to perform their assigned duties should be provided.

- 420.12 The gate judge must be in their assigned location well before the start of the run. Organisers should provide gate judges with protective clothing against adverse weather where necessary and should provide some form of nourishment during the run.
- 420.13 The organiser is responsible for having a sufficient number of competent gate judges available.

## **421 Poles**

All poles used in alpine events are described as slalom poles and are either rigid poles or flex-poles.

For WPAS competitions the poles must conform to the FIS specifications.

### **421.1 Slalom**

For WPAS Slalom races, poles with a diameter of 27mm must be used.

- 421.1.1 For WPAS Slalom races, alternate colours for slalom poles may only be approved by the jury, should red and blue poles be unavailable.
- 421.1.2 A gate must have a minimum width of 5.50 m. and a maximum of 6.50 m. The distance between gates within combinations (hairpin, vertical) must not be less than 0.75 m. Delayed gate combinations must be at minimum 12m and at maximum 18m. The distance from turning pole to turning pole of successive gates must not be less than 0.75 m. and not more than 13 m. Exception: Children competitions - not more than 12 m.

## **422 Gate Panels**

For WPAS competitions the gate panels must conform to the FIS specifications.

## Section 3: Particular Rules for the Different Disciplines

In all WPAS competitions and disciplines, the WPAS Vertical Drop specifications apply (Regulation 1500).

### **700 Downhill**

A Downhill is characterised by the six components of technique, courage, speed, risk, physical condition and judgement. It must be possible to ski the Downhill course from the start to the finish with different speeds. The athlete adapts speed and performance to his ski technical skills and to his individual self-responsible judgement.

700.1 The course length has to be measured by a measuring tape, wheel or GPS and printed on the start and the results list.

#### **700.2 Gates**

700.2.1 A Downhill gate consists of 4 slalom poles and 2 gate panels.

700.2.2 For panels, rectangular cloth panels are to be used, approximately 0.75 m wide by 0.50 m high. They are to be fastened on the poles, so that they can be recognised as easily as possible by the competitors. In place of red cloth a luminous orange colour may be used. If the safety netting is the same colour as the gate panels (usually red or blue), and where the gates cannot be seen properly against the backdrop of the safety netting, an alternative colour for the gate panels (usually blue or red) may be used on those gates.

700.2.3 The width of the gates must be at least 8 m.

### **701 Course Setting**

#### **701.1 Setting of the Gates**

701.1.1 Gates must be set to delineate the desired racing line.

701.1.2 Before difficult jumps and difficult passages, appropriate course setting should control the speed where possible.

701.1.3 At places where the outside gate must be removed in exceptional cases decided by the Jury the turning gate serves as a gate.

701.1.4 Before the start of the first official training the competitors should conduct a complete inspection of the course.

701.1.5 The members of the Jury must be available to receive requests and suggestions

regarding the course, training etc. from the competitors and trainers.

## **702 Official Training**

### **702.1 Obligation to Participate**

Official training forms an integral part of the competition. Competitors are required to participate in the training. All qualified competitors entered for the competition must have been entered and drawn in all official training runs. This is also valid where substitutes are authorised by special rules.

### **702.2 Duration**

702.2.1 Three days should be scheduled for the inspection and official training.

702.2.2 The Jury may decide on a reduction in the number of training days or at least one training run.

702.2.3 Official training need not necessarily be on consecutive days.

### **702.3 Race-ready Preparation**

The entire facility (start, course, and finish area) must be completely prepared and ready for racing by the first official training day.

703.3.1 All crowd control barriers must be completed.

### **702.4 Training Numbers**

Competitors must wear training numbers (bibs) for all official training.

### **702.5 Start Order**

The Start Referee, or an official appointed by the Jury, must verify from a start list that the competitors start training in the order of the training start list, and that start intervals are maintained.

### **702.6 Timed Training**

702.6.1 During at least one of the training days the times must be taken.

702.6.2 Recorded times must be given to the team captains at latest at the team captains meeting but may also be announced over the loud speaker or published on the scoreboard after each competitor's run.

702.6.3 A competitor must participate in at least one timed training run.

702.6.4 In case of a fall, or stopping, or being overtaken during a training run, the competitor must leave the race course. Continuing on the Downhill course during the current training is not permitted. The competitor (and guide with VI competitors) may, however, move along the edge of the course to the finish.

702.6.5 In case of atmospheric changes (snowfall etc.) between the last training day and the day of the race, an inspection of the course may be organised for the competitors on the day of the race accompanied by members of the Jury.

### **703 Yellow Flag**

703.1 *Inspection* -The Jury may, define the position of the yellow flags for the training and for the race if required which can be waved to alert the following competitor. The flags must be positioned before the first inspection and should be recognisable by the competitors.

703.2 *Training* - When a competitor is stopped in training by the yellow flag, they have the right to re-start from the point where they had been stopped.

At the request of the competitor, a Jury member may allow them a re-run if this is possible from the point of view of the organisation and any delay resulting there from. If a re-run is approved it is the responsibility of the competitor to present themselves to the start referee before the last competitor has started, otherwise this approval will be withdrawn.

703.3 *Race* - When a competitor is stopped during the race they have the right to a re-run provided that the Jury considers this possible from an organisational point of view. The Jury should ensure that the competitor's re-run takes place before the last competitor on the start list of the race.

703.4 *Obligation* - When a competitor is waved down with a yellow flag the competitor must stop immediately.

703.5 *Commands* - On the command "start stop!" or "start stop, yellow flag" the start referee must close the start. The start referee must respond immediately via radio confirming that the start is closed, and state the start number of the last competitor to have started as well as the start number of the competitor held at the start ("start stop confirmed, number 23 on course, number 24 at the start").

The Jury member who called the "start stop" is also responsible for requesting yellow flag(s) that are necessary to stop competitor(s) on course.

### **704 Execution of the Downhill**

**704.1**     *Downhill in One Run*

A Downhill will be carried out in one run.

**704.2**     *Downhill in Two Runs*

704.2.1 Downhill in two runs can be organised with the required vertical drop as stated in the WPAS Rules and Regulations.

704.2.2 The result will be determined by the addition of the two runs. The rule "Starting order for the 2nd run" will be used.

704.2.3 All the rules for the Downhill are valid for the race in two runs. The Jury will rule in case of problems caused by the course, the training and the two runs.

704.2.4 The two runs should be completed on the same day.

**705**     **Crash Helmet**

All competitors and forerunners must wear a crash helmet for official training as well as for the race that meets the regulations as described in WPAS Equipment Rule Book published on the WPAS website.

*Specifications* - Soft ear protection is only permitted for helmets used in Slalom.

**800**     **Slalom**

**801**     **Technical Data**

801.1 The slalom is a technical event over a shorter course than other events but with a high number of gates that the competitor must negotiate. If a competitor misses a gate they are disqualified.

801.2 Each competitor completes two runs on the same day on different courses. Times from the two runs are added together to determine the final order based on ascending total time.

**801.3**     **Gates**

801.3.1 A slalom gate consists of two poles or where there is no outside pole the gate will consist of a turning pole.

801.3.2 Consecutive gates must alternate blue and red.

801.3.3 A gate must have a minimum width of 5.5 m and a maximum of 6.5 m. The distance between open gates with a direction change is a minimum of 9m and not more than 13 m (valid for all categories).

Exception Youth competitions:

- between 7 m and 11 m

The distance between gates within combinations (hairpin or vertical) must be not less than 0.75 m and not more than 1.00 m. The gates in hairpin or vertical combinations must be set in a straight line. Delayed gates must have a minimum distance of 12 m and a maximum distance of 18 m (Youth Competition 15 m) from turning pole to turning pole.

## **802 Single Pole Slalom**

802.1 A single pole slalom has no outside pole except the first and the last gate, a delayed gate and combinations (hairpin, vertical).

802.2 Single pole slalom is permitted in all Level events, and recommended for all Level 2-3 events.

802.3 Where there is no outside pole, both feet and ski tips must have passed the turning pole on the same side, following the normal race line of the slalom crossing the imaginary line from turning pole to turning pole. If a competitor loses a ski, without committing a fault, e.g. not by straddling a pole, then the tip of the remaining ski and both feet must meet the requirements. If the competitor has not correctly crossed the imaginary line of the gate (imaginary plane from turning pole to outside pole) and does not follow the normal race line, then the competitor must climb back up to a position where the toe piece of the boot binding (s) crosses the imaginary line of the turning pole.

## **803 Course Setting**

803.1 The Slalom should permit the rapid completion of all turns. The course should not require acrobatics incompatible with normal ski technique. It should be a technically clever composition of figures suited to the terrain, linked by single and multiple gates, allowing a fluent run, but testing the widest variety of ski technique, including changes of direction with very different radii. Gates should never be set only down the falling-line, but so that some full turns are required, interspersed with traverses.

803.2 A Slalom competition must contain horizontal (open) and vertical (closed) gates as well as a minimum of one and a maximum of three vertical combinations consisting of three to four gates and at least three hairpin-combinations consisting of two gates. It must also contain a minimum of one and a maximum of three delay gate combinations.

Youth (U14-U17):

- U14: Minimum 2 and maximum 4 hairpin combinations and minimum 1 and maximum 2 vertical combinations consisting of maximum 3 gates.
- U17: Minimum 3 and maximum 6 hairpin combinations and minimum 1 and maximum 3 vertical combinations consisting of 3 - maximum 4 gates.
- They must also contain a minimum of one and a maximum of three delayed turns

The course should have no special technical difficulties.

## **803.3 Setting**

In setting Slalom the following principles should be observed:

803.3.1 Avoidance of monotonous series of standardised combinations of gates.

803.3.2 Gates, which impose too sudden sharp braking on competitors, should be avoided, as they spoil the fluency of the run without increasing the difficulties a modern Slalom should have.

803.3.3 It is advisable before difficult combinations of gates to set at least one gate which allows the competitor to ski through the difficult combination under control.

803.3.4 It is not advisable to set difficult gate passages either right at the beginning or end of the course. The last gates should be rather fast, so that the competitor passes the finish at a good speed.

803.3.5 Where possible the last gate should not be too close to the finish. It should direct competitors towards the middle part of the finish. If the width of the slope necessitates it, the last gate can be common to both courses, provided the prescribed alternation of blue and red gates is maintained.

803.3.6 The slalom poles should be fixed (screwed in) by the chief of course or his assistants immediately after they have been set, so that the course setter can supervise the operation.

803.4 **Checking the Slalom Course**

The Jury must check that the course is ready for racing once the course setter has set it, paying special attention that:

- The slalom poles are firmly fixed (screwed in).
- The gates are in the right colour order.
- If necessary the position of the poles is marked.
- The numbers are in the right order on the outside poles.
- The poles are high enough above the snow.
- The two slalom courses are far enough from each other to avoid misleading the competitors.
- The reserve poles are correctly placed not to mislead the competitors.
- Start and finish are in accordance with art. 408 and 410.

Delay Gate Combination

- A. Horizontal Gate
- B. Delay Gate
- C. Vertical Gate
- D. Turning Pole

Vertical Combination

## 804 The Start

### 804.1 Start Intervals

The start takes place at irregular intervals in Slalom. The chief of timing and calculations or their assistant tells the starter when each competitor should start, in agreement with the Jury. The competitor on the course need not have passed the finish line before the next competitor starts.

### 804.2 Starting Order

804.2.1 In the first run in sequence of the start numbers.

804.2.2 For the second run see art. 412.4

### 804.3 Start Signal

As soon as the starter has received the order for the next start, he gives the competitor the warning "Ready", "Attention", "Achtung" and a few seconds later the start signal "Go! Partez! Los!" The competitor must start within about 10 seconds after this order. For visually impaired competitors, direction within this window comes from the guide where required.

804.3.1 A competitor must appear, at latest one minute, after being called by the official. Early start times caused by the non-arrival of preceding competitors have to be taken into account. The start referee may however, permit a delay, which in their opinion is due to "force majeure". In doubtful cases the start referee may allow the competitor a provisional start, inserted in the normal starting order. The start referee will make the necessary decisions.

804.4 Valid Start and False Start

Each competitor must start according to the art. 804, otherwise the competitor will be disqualified.

**805 Execution of the Slalom**

805.1 **Two Runs**

Two runs on two different courses must always decide the slalom competition.

Both courses must be used one after the other in the order decided by the Jury. Division of the competitors into two groups starting simultaneously on both courses is not permitted. Whenever possible, both runs should be held on the same day.

805.2 **Limitations in the Second Run**

The Jury has the right to reduce the number of competitors for the second run to half on the first run start list. The decision has to be made no later than one hour before the start of the first run.

**806 Crash Helmet**

All competitors and forerunners must wear a crash helmet for official training as well as for the race that meets the requirements as described in the WPAS Equipment Rule Book published on the WPAS website.

*Specifications* - Soft ear protection is only permitted for helmets used in Slalom.

**900 Giant Slalom**

**901 Technical Data**

- 901.1 The giant slalom is a technical event with a longer course and fewer gates than the slalom. The number of gates is determined by the vertical drop of the course. If a competitor misses a gate they are disqualified.
- 901.2 Each competitor completes two runs on the same day on different courses. Times from the two runs are added together to determine the final order based on ascending total time.
- 901.3 **Gates**
- 901.3.1 A giant slalom gate consists of 4 slalom poles and 2 gate panels.
- 901.3.2 The gates must be alternately red and blue. The gate panels are to be approx. 75 cm wide and approx. 50 cm high. They are fastened between the poles so that the lower edge of the panel is approx. 1 m above the snow and should be capable of tearing or breaking away from the pole
- 901.3.3 The gates must be at least 4 m and at most 8 m wide. The distance between the nearest poles of two successive gates must not be less than 10 m.
- In Youth competition the distance between turning pole and turning pole must be not more than 27 m.
- 902 General Characteristics of the Courses**
- 902.1 The terrain should preferably be undulating and hilly. The course should normally have a width of approximately 40 m.
- 902.2 The inspector authorised to homologate the course decides whether this width is adequate and if necessary can order it to be widened. The inspector can also permit a width of less than approximately 40 m depending on the line and terrain requirements, as long as the areas of the course before and after the narrow part enable this.
- 903 Course Setting**
- 903.1 **Setting**
- In setting a Giant Slalom the following principles should be observed:
- 903.1.1 The first run should be set the day before the race, if possible. Both runs can be set on the same course but the second run must be re-set.
- 903.1.2 The skillful use of the ground when setting a Giant Slalom is, in most cases, even more important than for a Slalom, since combinations play a less important role owing to the prescribed width of the gates and the greater distances between them. It is therefore better to set mainly single gates, while exploiting the ground to the

utmost. Combinations can be set, but mainly on uninteresting terrain.

903.1.3 A Giant Slalom consists of a variety of long, medium and short turns. The competitor should be free to choose his own line between the gates. The full width of a hill should be used wherever possible. At places where the outside gate must be removed in exceptional cases decided by the Jury the turning gate serves as a gate.

903.1.4 The course setter in setting the course for youth should take particular consideration of the physical ability of the competitors.

#### **904 Single Gate Giant Slalom**

904.1 A single gate giant slalom has no outside pole except the first and the last gate, and delayed gates.

904.2 Single Gate Giant Slalom is permitted in all Level 0 (WC), Level 1 (EC, NORAM), and recommended in Level 2-3 events. Single Gate Giant Slalom is not permitted in PWG or WCH events.

904.3 Where there is no outside pole, both feet and ski tips must have passed the turning pole of the turning gate on the same side, following the normal race line of the giant slalom crossing the imaginary line from turning pole to turning pole. If a competitor loses a ski, without committing a fault, e.g. not by straddling a pole, then the tip of the remaining ski and both feet must meet all requirements.

904.4 All rules and regulations dealing with the width of the course should be considered, as if there is an imaginary outside gate.

#### **905 The Start**

905.1 In the first run in sequence of the start numbers.

905.2 For the second run see art. 412.4

#### **906 Execution of the Giant Slalom**

906.1 Two runs must always decide a Giant Slalom. The second run may be held on the same course, but the gates must be reset. Whenever possible, both runs should be held on the same day.

#### **906.2 Limitations in the Second Run**

The Jury has the right to reduce the number of competitors for the second run to half on the first run start list. The decision has to be made no later than one hour before the start of the first run.

## **907 Crash Helmet**

All competitors and forerunners must wear a crash helmet for official training as well as for the race that meets the requirements as described in the WPAS Equipment Rule Book published on the WPAS website.

*Specifications* - Soft ear protection is only permitted for helmets used in Slalom.

## **1000 Super-G**

1000.1 The Super G element of a Super Combined competition will count towards WPAS Super G points.

## **1001 Technical Data**

1001.1 The Super-G is a speed event where each competitor completes one run down the course with their finish time determining the final order based on ascending time.

1001.2 The course is generally shorter than Downhill but longer than Slalom and Giant Slalom.

A Super-G will be carried out in one run.

1001.3 The course length has to be measured by a measuring tape, wheel or GPS and printed on the start and the results list.

## **1001.4 Gates**

1001.4.1 A Super-G gate consists of four slalom poles and two gate panels.

1001.4.2 The gates must be alternately red and blue. The gate panels are to be approx. 75 cm wide and approx. 50 cm high. They are fastened between the poles so that the lower edge of the panel is approx. 1 m above the snow and should be capable of tearing or breaking away.

1001.4.3 The gates must be at least 6 m and at most 8 m wide for open gates and at least 8 m and at most 12 m for vertical gates. The gate panels are fastened in such a way so they should tear or break away.

## **1002 General Characteristics of the Courses**

1002.1 The terrain should be undulating and hilly if possible. The course should normally have a width of approximately 30 m.

1002.2 The inspector authorised to homologate the course decides whether this width is adequate and if necessary can order it to be widened. The inspector can also permit a width of less than approximately 30 m depending on the line and terrain

requirements, as long as the areas of the course before and after the narrow part enable this.

### 1002.3 **Preparation of the Course**

The course must be prepared taking into account the same safety measures and snow preparation as that of a Downhill course.

### 1002.4 **Free-skiing on the Competition Hill**

Competitors should be given the opportunity to free ski on the closed competition hill before the course is set if possible.

## 1003 **Course Setting**

1003.1 A Super-G should contain a variety of long and medium turns. The competitor should be absolutely free to choose their own line between the gates. It is not permitted to set only down the fall-line of the slope.

1003.2 In exceptional cases, as determined by the Jury, the outside gate may be removed. In such cases the turning gate serves as a gate.

1004 **Yellow Flag** – art. 703 applies

## 1005 **Crash Helmet**

All competitors and forerunners must wear a crash helmet for official training as well as for the race that meets the requirements as described in the WPAS Equipment Rule Book published on the WPAS website.

*Specifications* - Soft ear protection is only permitted for helmets used in Slalom.

## 1100 **Super Combined**

1100.1 The Super G element of a Super Combined competition will count towards WPAS Super G points

## 1101 **Technical Data**

1101.1 A combined competition, which represents the final result of two disciplines, it is usually one run of either a Downhill or Super-G and a single run Slalom.

1101.2 Each competitor completes two runs on the same day on different courses. Times from the two runs are added together to determine the final order based on ascending total time.

1101.3 Whenever possible, both runs should be held on the same day.

- 1101.4 Starting numbers given to the competitors for the first run remain the same for all runs.
- 1101.5 The results of a Combined competition are only counted if the competitor takes part in each event of the Combined and appear in the intermediate results.
- 1101.6 The Combined results are calculated by adding the race times of the single events or runs.

## **1200. Parallel Event**

### **1200.1. Type of Event**

- The race will be conducted as a parallel event with one qualification run.

### **1200.2 Sequences: the parallel event format consists of:**

- A qualification run;
- Finals in parallel race format.

### **1200.3 Time Calculation:**

- GS factors will be used to calculate the differential at the start;

### **1200.4 Course preparation:**

- Vertical drop should be between 80 and 120m; for indoor events minimum 60m
- Course settings for parallel event are between 15m and 22m gates distance;
- It should be between 15 and 22 gates, not counting start and finish;
- Run time for each race should be between 30 and 40 second;
- Slope width should permit two or more courses, preferably slightly concave; Terrain variations must be the same across the surface of the slope; The course layout must have the same profile and the same difficulties;
- Over the full width of the slope, the snow must be consistently hard, similar to course preparation for Slalom, offer equal race conditions on both courses;
- Organiser must provide transport for athletes back to the start in the shortest time possible.

### **1200.5 The Course:**

- Each course is designated by a series of GS gates with FIS homologated GS panels;
- Poles and panels are red for the course on the left and blue for the other course on skier's right;

- The same course setter establishes the courses and makes sure they are identical and parallel. Course setter must ensure that the course flow is smooth and that there is variety in the curves and that course causes rhythm changes;
- First gate in each course should be placed between 10m and 12m;
- Shortly before the finish line, after the last gate, the separation between the two courses must be well marked so that they direct each competitor towards the middle part of the respective finish;
- Distance between two corresponding gates should be no less than 8m.

#### **1200.6 Start:**

- Start gate must be FIS homologated. The gate must be capable of simultaneous and /or delay opening and connecting to the timing devices.
- Start gate should be accommodated to allow start of the guide from their preferable position.
- The Jury and the starter together will control the start. Start signal can only be given after the Jury has given the athletes permission to start.

#### **1200.7 False start:**

Penalties will occur:

- if the athlete goes through the gate before the start command;
- if the athlete does not have both ski poles/outriggers set behind the closed gate

#### **1200.8 Start Command:**

- Before the starter gives the command of either “Ready – Set” and the starting signal which opens the start gates, the starter must first ensure that athletes are ready to start;
- If one or both start gates fail to open the start must be repeated.

#### **1200.9 Finish:**

- The finish areas must be symmetrical; The line into the finish must be parallel with the line of the start gates;
- Each finish line is marked by two poles connected with banner from the finish; Each of them must be at least 7m wide.

#### **1200.10 Calibrated time:**

- The fastest unadjusted time or Race Pace Time (RPT) will be set in qualifications and will be recorded. This RPT will be multiplied by each athletes’ classification factor to determine each athlete’s pace time. The differential between each of the competitor’s pace time will be applied at the start gate.

#### 1200.11 Equipment:

- All adaptive equipment must be approved by WPAS
- Slalom or Giant Slalom skis can be used, based on equipment rules for Slalom and Giant Slalom event.
- The athlete can choose whether a Slalom or a Giant Slalom helmet will be used.

#### 1200.12 Draw:

- Athletes must meet the criteria for Giant Slalom in each respective race level to enter the draw;
- The athletes will be drawn based on their GS points within their categories (VI, Standing Sitting, in this order)

#### 1200.13 Qualification:

- One single qualification run will be carried out.
- A qualification run is shorter than a traditional GS run, and it may take place on the competition course.
- The qualification run will be set with single GS gates. The distance between the gates will be between 15m and 22m.
- Qualifying will alternate courses in bib order. Bibs 1,3,5,7,9... will be on the red course and bibs 2,4,6,8,10... will be on the blue course.
- The Jury will announce at the TCM how many athletes per gender will advance to the Finals. Half of the competitors will qualify from each course into the heats. (if 16 athletes go to the Finals, 8 competitors will qualify from red and 8 from blue)
- Tie breaker: In case of a tie, the competitor with the higher bib number will be ranked better.
- All the athletes that advance to the Finals will be given new bibs and placed in heats according to their qualification rank as described in articles 1200.14.1, 1200.14.2 and 1200.14.3
- A FIS Homologated parallel start door will be used at the start for the qualification run.

## Section 4: Special rules

### 1260 Race points and penalty calculation

#### 1260.1 Race Points Calculation:

The race points will be calculated according to the FIS alpine formula.

P = Race points of competitor x

$$P = \left( \frac{T_x}{T_o} - 1 \right) * F$$

T<sub>x</sub> = Calculated time of competitor x in seconds

T<sub>o</sub> = Calculated time of the overall gender winner in seconds

F = Discipline factor (See 1582)

#### 1260.2 Race penalty calculation:

The WPAS – Race penalty calculation will be calculated in accordance with the current rules of FIS Race points penalty calculation, applying WPAS parameters.

Fewer than five competitors: Maximum value

If there are fewer than five competitors with WPAS points amongst the first ten of the result list, or there are not five competitors who started with WPAS points, then those competitors without WPAS points, i.e. the remaining competitors, will receive the maximum value:

Downhill: 280

Super G: 280

Slalom: 240

Giant Slalom: 240

Super Combined: 280

If fewer than three competitors with WPAS points are ranked within the five competitors who are taken into consideration, then the maximum penalty (Rule 1582) will be applied. At least three competitors must have WPAS points (irrespective of the number of points) and at least five competitors have to be

classified. If competitors' WPAS points included in the best five exceed these maximum values, the maximum points value is applied.

If a competition has three or four athletes on the start list and the penalty can't be calculated based on the procedure described above, then the maximum penalty will be applied (Rule 1582). If a competition has two athletes or fewer on the start list then the competition will not be considered for WPAS points purposes.

### 1260.3 **Race result**

The WPAS – Race result will be the addition of the race points of the competitor and the race penalty.

### 1261 **WPAS Points calculation**

1261.1 Base Points list - The Base WPAS Points List (“BL”) will be published prior to the beginning of the season at <http://www.paralympic.org/AlpineSkiing/Rankings> or as otherwise determined by WPAS.

1261.1.1 The average of the best two results in each event during the previous season will be used for the calculation of the BL. In exceptional circumstances WPAS can decide to extend the period for calculation.

1261.1.2 For an athlete who has obtained only one result in any of the disciplines (Downhill, Slalom, Giant Slalom, Super G, Super Combined), during the previous season, a 20% penalty will be added to their result. The minimum penalty to be applied in this respect is 20 points.

1261.1.3 For an athlete who has not obtained results in any of the disciplines (Downhill, Slalom, Giant Slalom, Super G, Super Combined), during the previous season, a 50% penalty will be added to their BL points from the previous season. These athletes must remain licensed and registered as active with WPAS. The minimum penalty to be applied in this respect is 50 points. Newly licensed athletes with no results will be listed with 999.99 points.

1261.1.4 If the status as injured, professional obligation or study break is approved in accordance with rule 1261.5 and carried over to a new season, a 10% penalty will be added to the athlete's BL if the current points are not higher than the frozen points as set out in that rule. The minimum penalty to be applied in this respect is 10 points.

1261.1.5 Athletes without results in any events during two complete seasons will not be included in the BL.

1261.2 Normal WPAS Points list (“NL”).

1261.2.1 The first NL List of the season will contain athletes licensed in the previous season. All subsequent NL Lists during the season will display only athletes licensed in the current season. The NL will be published and updated monthly at <http://www.paralympic.org/AlpineSkiing/Rankings>, unless otherwise determined by WPAS.

1261.2.2 The NL will reflect the average of a competitor's best two results or the BL, in each discipline during the current validity period, whichever number is lower.

1261.2.3 If the status as injured, professional obligation or study break is approved in accordance with rule 1261.5 the NL will display the athlete's frozen points, the average of the two best results, or the single results plus a 20% penalty (minimum 20 points), whichever value is lower.

1261.2.4 If an athlete has only one result in the current season and no BL points, a 20% penalty will be added to that result. The minimum penalty to be applied in this respect is 20 points

1261.2.5 If an athlete has only one result per event during the current validity period and also BL points, then either the BL points or the result plus a 20% penalty (minimum 20 points), whichever value is lower, will be reflected in the NL.

1261.3 The dates of the validity periods for the purposes of the NL shall be as determined by WPAS.

1261.4 For both BL and NL the maximum value for WPAS points will be limited to 999.99

1261.5 **Injury Status, Professional Obligation and Study Break (IS, PO, SB):**

If a competitor requests Injury Status (IS), Professional Obligation (PO) or Study Break (SB) through their NPC using the official WPAS Form, they must maintain a valid licence throughout the status period. A competitor may only use one status at a time.

The request for break penalty for injury status must be submitted together with the Injury Survey form to be considered. The request for break penalty for professional obligation or study break must be submitted with supporting documentation

Approved Injury Status, Professional Obligation and Study Break requests are only valid for one season.

Formal requests received after 01 Jun will apply as of 01 July of the following season.

The application for IS, PO or SB status is valid until the end of the competition season. After this, the NPC must reapply for new status to the WPAS STC. If no notice is received, the status will be deleted.

A period of at least 6 months must have passed without competing to maintain the Injury Status (IS).

In the event the competitor is still under IS upon return he/she achieves two results in a given discipline with a better average than the frozen WPAS that average will be used to calculate his/her WPAS points.

All athletes with IS/PO/SB status are permitted to freeze their ranking points for the complete duration of their status but will not be included in the rankings until the status is deactivated. IS/PO/SB will be deactivated either when the NPC/NSF has informed WPAS that the status should be deactivated or automatically after an athlete makes five (5) starts in any discipline (e.g. 2SL and 3 GS). If an athlete is to return after injury directly to a World Cup event, the NPC/NSF must inform WPAS via email of this fact, seven (7) calendar days prior to the publication of the applicable ranking list for that Event.

## **1270 Participation in WPAS competitions**

- 1270.1 World Para Alpine Skiing will review and publish the participation criteria at WPAS and IPC competitions at the beginning of the competition year. For Levels 0 and 1 Events, all entries and wildcard applications are subject to the WPAS Qualification Criteria for each respective season, located on the World Para Alpine Skiing Website.
- 1270.2 In all events, the Jury can remove a wildcard athlete for safety reasons, should the athlete not have the ability to perform to a safe standard during the first training run.

## **Section 5: Specific rules for WPAS**

### **1300 Technical rules**

#### **1301 Special rules for standing competitors**

- 1301.1 Competitors in classes LW 5/7 and LW 6/8 and LW 9 are not allowed to use the free limb in contact with the snow to regain balance creating a competitive advantage. Unintentional contact – such as a “hand drag” will not be considered a competitive advantage.

## **1302 Special rules for visually impaired competitors**

1302.1 The competitor and the guide will be governed by the IPC Athlete Nationality Policy. Therefore both the competitor and the guide will be nationals of the country or territory of the NPC/NSF that enters them in any IPC Sanctioned competition.

### 1302.1.1 Changing guides

During competition in the event of a guide's injury or illness a competitor is permitted to change his/her guide with the approval of the jury. The replacement guide must be WPAS licenced.

In all other circumstances a competitor must make a written request in advance to World Para Alpine Skiing explaining their reasons for changing guides.

1302.2 For all B-classes the use of a guide is obligatory.

1302.3 For safety reasons, guides must have suitable vision defined as follows: the visual field must be within normal limits and the visual acuity in one eye at least 0,5 and in the other eye at least 0,2 (with best correction). The NPCs' are responsible to guarantee the guides' visual eligibility.

1302.4 All guidance equipment must comply with rule 318.

1302.5 In Level 0 competitions, B1 competitors must ski behind their guide.

In Level 1, 2 and 3 competitions, B1 competitors may ski either: (i) in front of; or (ii) behind their guide. The competitor must inform the competition jury before the start of each run whether they wish to ski in front of or behind their guide on that run. Subject to rule 1303.1, once they have started the run, they may not change their decision in this respect or switch position with their guide during that run.

VI competitors in all other sport classes must always ski behind their guide in all competitions. Physical contact between the guide and competitor during the race is not permitted. Any breach of this rule by an athlete and/or guide will lead to disqualification.

1302.6 All competitors in class B1 must wear blacked-out goggles during the competition. The model of the blacked-out goggles is optional, but the jury can control them.

1302.7 VI competitors will be permitted to start course inspection ten (10) minutes prior to other competitors.

1302.8 Competitors and their guides are permitted to sideslip or snow plough at low speed, through the gates but never more than 3 consecutive gates, during the official inspection, if approved by the jury.

1302.9 The same sanctions that apply to a competitor may be applied to a guide.

### **1303 Guides**

1303.1 All guides must guide VI competitors in accordance with Rule 1302.5, subject to the following exception:

If a competitor is skiing behind their guide, they are permitted to overtake the guide only between the last gate and the finish line.

1303.2 The distance between guide and competitor must be less than three (3) gates for SL and two (2) gates for GS, SG and DH, excluding delay gates and vertical combinations. Failure to comply will lead to disqualification.

1303.3 The guide must pass through all gates.

1303.4 All guides must wear a guide bib in all Level 0 WPAS competitions, which will be a supplied competition bib provided by WPAS. At levels 1 to 3 WPAS competitions a guide must wear an appropriate bib to identify them as a guide. If bibs are supplied by the organiser of the event, the guides must use these.

The guide bibs must meet the following specifications:

- Guide bibs must have a clearly visible “G” on the front and the WPAS logo on the right shoulder front and the colour needs to be orange (RAL 2005), yellow (Pantone 803) or red (Pantone 1795).
- All Guides must use the WPAS (Level 0) or event guide bib supplied to them.
- The back of the bib may be any colour and modified by adding a pattern with coloured tape or other coloured material which best accommodates the individual needs of visually impaired competitors. Any modifications must be affixed in such a way that the bib will stay secure during the race run yet be able to be removed in order to return the bib back in its original condition.

If a guide bib is lost or damaged, World Para Alpine Skiing will charge the competitor a fee of 60 Euros for a replacement bib.

### **1304 Microphones**

Public address systems, snow machines or other noise must be kept to a minimum at the start, finish and on the entire race course for all visually impaired competitors.
